Cindy:

You're good on the language.

The following parties should **not** be sent the "Recalcitrant letter" because they have joined the Group or are responding to the Group.

Akzo Nobel

Goodrich is participating as **Walbar** - is a communication issue to include "Goodrich"? I willing to check it out if necessary!

Pilot Industries has joined the Group & signed the AOC

Pilot Chemicals has not joined! Pilot Industries & Pilot Chemical are at the same address. I have called the president and attorney for clarification with no response.

Public Works City of Houston - We (the "Group") have asked them to hold off joining because of the confidentiality conditions.

Velaro Refining is now a member of the Group

Regards,
Randy
